Building Education Revolution Program — section 94E Direction

The purpose of this circular is to advise councils, accredited certifiers and the public of a Direction issued under section 94E of the *Environmental Planning and Assessment Act 1979* preventing the imposition of development contributions on development carried out under the Building Education Revolution Program.

Background

The Commonwealth Government has committed funding of \$14.7 billion over three years to provide new facilities and refurbishments in Australian schools through the Building Education Revolution Program (BER Program).

The BER Program is a critical component of the Government's economic stimulus package, ensuring the timely construction and refurbishment of school infrastructure.

Preventing the imposition of development contributions for development in relation to the BER Program will improve the ability of schools in NSW to efficiently respond to the Commonwealth Government's economic stimulus package.

Section 94E Direction

Attached to this circular is a Direction executed by the Minister for Planning under section 94E of the *Environmental Planning and Assessment Act 1979* (EP&A Act).

Effect of this Direction

This Direction, as of 9 September 2009, has the effect of:

- preventing a consent authority from imposing a condition pursuant to section 94A of the EP&A Act in respect of any component of a school development that is a BER Project
- there being no public amenities or public services to which a condition under section 94 of the EP&A Act in respect of any component of a school development that is a BER Project may be imposed.

Development to which the Direction applies

This Direction applies to a development, or a component of a development, that is a BER Project under the Nation Building and Jobs Plan.

A BER Project refers to development that is carried out under the BER Program and funded by the Commonwealth under the Nation Building and Jobs Plan, *Appropriation (Nation Building and Jobs) Act (No. 1) 2008–2009* and *Appropriation (Nation Building and Jobs) Act (No. 2) 2008–2009*.

A list of funded projects approved under the Nation Building and Jobs Plan is available from the Department of Education, Employment and Workplace Relations at <http://www.deewr.gov.au/Schooling/BuildingTheEducationRevolution>.

The Direction applies to BER projects undertaken in relation to both government and non-government schools.

Where a project is partially funded through the BER Program

Where a project is also funded through other sources the Direction does not apply to the non-BER funded component of the project.

Complying development

As a result of changes to the EP&A Act that took effect on 17 July 2009, accredited certifiers now need to take into account section 94E directions issued by the Minister for Planning. Therefore, in regard to any component of development that is a BER project, an accredited certifier cannot impose conditions on complying development certificates requiring the payment of monetary contributions under section 94 or 94A of the EP&A Act.

State infrastructure contributions

A State infrastructure contribution should not be levied on any component of a development that is a BER Project.
